By pre-purchasing a summer share you help Clear Brook Farm with spring startup costs including, seed, labor, fuel, and soils.

## HOW IT WORKS:

Our summer share program is a "free choice" share which allows you the freedom and flexibility to visit our farm stand any time you choose and purchase anything we sell at the farm stand during the season be it plants, our own organic produce, local cheese, local organic milk, baked goods, fruit, syrup etc. We will have a "gift card" at the farm stand with your name and balance on it (including your discount). **We cannot carry credit into the next year, so you MUST use all your credit before we close in October. However, you can use any remaining credit to join our Winter CSA in the fall.**
